

VSS MEDICAL OFFICE SYSTEM - UPGRADE LOG 05.00.01

These changes, corrections and additions have been made to the Medical Office System since the August 2006 update sent. If your support contract is currently in effect, these will be shipped at no charge. We will be sending the corrected manual pages and new documentation as soon as it is ready.

- 12/13/2006 Fixed bug with Expected Payment when procedures were loaded from group procedures.
- 1/3/2007 Fix employment posting to FastEMC.
- 1/3/2007 Set up new paper insurance form for CMS 1500.
- 12/13/2006 Changed Payment codes to include all types when using the check track functions. It only used CK transactions prior to this.
- 6/15/2007 Fix NDC procedures to post both NDC number and procedure code.
- 6/15/2007 Make sure 2 decimal places follow the NDC units to FastEMC.
- 7/9/2007 Fix YTD Detail Summary to properly display Current Month as last page.
- 7/9/2007 Add Printed Date/Time to Day Sheet Report. This report depends on the accurate update of the last visit date on the patient screen. It will include patients in Other Payment if they do not have a matching date in the Last Visit to indicate an appointment on that date. It should be run close to the date requested to insure the last visit date has not changed.
- 7/9/2007 Fix Patient Balances was improved to also update the Insurance
- 7/12/07 Correction for Statements - Including Zero balance claims for INS when they were complete.
- 7/12/07 Included a new format for statements that prints only one line for each claim with a balance due. Only the total is shown for each insurance carrier, no detail.
- 7/12/07 Still working on new statement format.

Be sure to convert all insurance forms whenever an upgrade is installed. This insures the latest logic is incorporated in all your forms. If you are experiencing changes in the form layout after installing an upgrade, it is because the forms have not been converted following the upgrade.
